ARTSCOOL

Annual Summer Arts Studies for Children & Teens

CLASS DESCRIPTIONS

Acrylic Basics and Acrylic Basics II

Explore the basics of acrylics while creating abstract, still life, self-portrait and landscape paintings. Students discuss contemporary artists and art history with each activity. Acrylic Basics II students will work at an intermediate level.

Instructor: Marti Koehler

Art About Bugs and Butterflies

Explore the world of insects by learning fun facts while drawing and painting the little critters living in your own back yard.

Instructor: Mary Goetz

Art Math Matrix

Learn math concepts and reinforce math skills while creating enjoyable art projects such as symmetrical snowflakes, artistic pizzas (fractions), tessellations (patterning), sailing ships (geometry), Native American shields and three-dimensional shapes in a variety of mediums.

Instructor: Jan Krasowski

Art of Costume: Experiments in Clothing

Explore the art of costume and wearable sculpture. Students integrate found objects, pattern, textures, fabrics and materials to examine symbolism, form and function in costume. *Materials fee \$10.

Instructor: Sarah Coble

Art of Sewing

Explore hand and machine sewing with any type of fabric to make pillows, bean bags, handbags and more. Bring your own cloth for a special touch!

Instructor: Che-Ke-Ka Moore

Be An Artist!

Learn about art technique and art history while producing artwork relating to Van Gogh, Monet, Matisse and Pollock.

Instructor: Mary Parkman Rowe

ClaysCOOL and ClaysCOOL II

Learn the proper procedures in ceramic art building and glazing techniques. Make fun and exciting projects to take home including: plates, cups and sculpture. ClaysCOOL II students will also work on the pottery wheel.

Instructor: David Hammel

Comic Strips and Manga Characters

Learn to create comic strips and the art of Japanese anime characters using pen and ink, markers and colored pencils.

Instructor: Nicole Casteel

Courage to Be Creative

Gain artistic confidence in this drawing and painting class through the use of simple techniques and awareness of design. Students create their own masterpiece.

Instructor: Michelle Lee

Creating the Picture in My Mind

Create beautiful works of art and learn about texture, line, color, shape and space. These techniques are also the adjectives and adverbs that create and connect the visual images in our mind to what we read or when we think.

Instructor: Michelle Lee

Creative Journals!

Learn to assemble and use a personal journal to express feelings and ideas through daily writing, drawing, collage, painting and two-dimensional pop-up activities. Students discuss contemporary artists and art history with each activity.

Instructor: Marti Koehler

Drawing and Mixed Media

Work in flat or in three-dimensions with a single medium or in several. Ideal projects include collage and assemblage.

Instructor: Kelly Hollingsworth

Enviroart: Florida Fish, Birds and Mammals

Discover the local Southwest Florida environment through art. Learn about the cool creatures and cultures that call Florida home. Students will work with clay, found objects and traditional materials.

Instructor: Sarah Davis

Illustration and Cartooning

Use a variety of media (pencils, paint, collage and more) to create illustrations for magazine and newspaper articles, a book cover and a story as a group class project. Invent characters and write a story for your own comic book.

Instructor: Jane Mjolsness

I'm A Basket Case... All Tied Up In Knots!

Explore the wonderful world of basket weaving and macramé. Weave reed baskets and create plant hangers and jewelry with nautical knots.

Instructor: Nicole Casteel

Jewelry Making

Explore many facets and materials to create beautiful jewelry. Enameling, leather, rope and beads are just some of the materials that will be investigated. *Materials fee \$10.

Instructor: Nicole Casteel

Land Before Time

Explore cavemen, dinosaurs and Native American rock art while creating faux fossils out of clay, making prehistoric animal panoramas and more.

Instructor: Jan Krasowski

Litterbugs

Use recycled materials and found objects to create various creatures and critters.

Instructor: Kim Willis

Make Your Own Greeting Cards

Make birthday and special event cards using your own drawings, paintings and collages. Learn to scan artwork and create digital art in PhotoShop to use as a card design. Students will create 10-12 greeting cards and one could be sold in our gift shop.

Instructor: Jane Mjolsness

Mapping Your World

Create a variety of two- and three-dimensional interior and exterior maps, scrolls, relief maps and constructions.

Instructor: Marsha Ellis

Masquerade and Masquerade II: Carnival

Discover and create masks, puppets and adornments from around the globe such as African masks, Mardi Gras masks, dragon puppets, Native American medicine bundles and Egyptian collar necklaces. Masquerade II students will work at an intermediate level.

Instructor: Jan Krasowski

Mixed Media Collage

Discuss Rauschenburg, Rivers, Warhol and Pop Art before making projects combining three-dimensional painting, collagraph and printmaking.

Instructor: Bill Saladino

Modern Maze Masters

Kids love mazes! Build two-and-three-dimensional mazes in the styles of modern masters.

Instructor: Marsha Ellis

Observational Drawing

Learn the basics of drawing while exploring your own expressive individual style. Contour drawing, form and shading, space and illusion, texture and expression are just some of the topics of investigation.

Instructor: Mary Parkman Rowe

Outrageous Oil Pastel

Learn to work with oil pastels while creating outrageously cool pictures with depth, dimension and even motion. See animals, land, ocean and even outer space in a whole new way!

Instructor: Lisa Camp

Paper Mache: Paste, Paint and Cloth

Create sculptural animals and food items out of paper mache, paint and cloth.

Instructor: Che-Ke-Ka Moore

Print and Paint Your Heart Out

Work with easy block cutting tools to create finished prints from drawings and experiment with printing different materials.

Instructor: Mary Goetz

Printmaking

Explore contemporary relief printmaking methods including monoprints, glue prints, collage, cardboard relief prints and linocut. *Materials fee \$10.

Instructor: Bill Saladino

Secret Box

Learn the art related history of various cultures and how those differences are expressed while creating a decorative box that holds a cultural secret. Explore Modern and Native American cultures along with those of Ancient Egypt, China and Africa.

Instructor: Jennifer Rankin

Shapes and Colors of Our World

Learn beginning design techniques through the use of simplified shapes and color.

Instructor: Kim Willis

Squish-Squash and Crumple

Work with an array of materials to combine and create exciting art projects. Students will use their imaginations to transform basic art materials into a treasure of creative projects.

Instructor: Mary Goetz

Super Science and Amazing Art

Science, art and physical activity! Create art and learn about our world with these classes: Rockets, Space, Engineers, Inventors, Kitchen Chemistry, Go Green, Survivor and Super Science Specials. *Materials fee \$10

Instructor: Varied

Think Ink

Use found objects to stamp and print. Make monoprints and reduction prints with found objects from nature and around the house to create a variety of unique, amazing designs.

Instructor: Mary Goetz

Under the Sea and Under the Sea II: SeaQuest

Learn about the wonders of aquatic life while creating clay fish and shell necklaces, tropical fish paintings, mermaids and underwater castles, penguin puppets and more. Under the Sea II students will work at an intermediate level.

Instructor: Jan Krasowski

Wacky Watercolor

Learn to paint with watercolor using several different brush strokes and painting techniques while creating fun and wacky paintings of sea life, outer space, landscapes and animals.

Instructor: Lisa Camp

Watercolor Painting

Explore the techniques of watercolor painting to include: alla prima, wet on wet, wet over dry, dry brush, variegated wash, spattering and more.

Instructor: Bill Saladino

11th Annual

ARTSCOOL

ART IS
WAY COOL!

SUMMER ART CLASSES FOR KIDS

STUDENT EXHIBITION

Students exhibit their work at The von Liebig Art Center from July 25 through August 9. Work can be picked up at the Open House from 3-5 pm on Sunday, August 9, 2009.

In addition, some students are selected to exhibit their work at the Naples City Hall from August through January. Students can pick up their work at The von Liebig Art Center from 10am-4pm on Saturday, February 6, 2010.

FULL DAY PROGRAM

Our full day program is perfect for working parents. Students experience art classes from 9am-4pm with a supervised lunch and play period at Cambier Park, for no extra charge. *Students must bring a lunch and are required to stay with their Art Center group.*

SCHOLARSHIPS

The Naples Art Association offers financial assistance and talent-based scholarships for ARTScool. This scholarship fund is made possible through the generosity of the following supporters: The Leonard C. & Mildred F. Ferguson Foundation and Richard Segalman
